eterea

La porta raso muro che non c'è.

La collezione ETHEREA è progettata dalla divisione Ricerca&Sviluppo di GD DORIGO ed è una porta a filo corridoio, apribile sia a spingere che a tirare, realizzata con un sistema di stipite brevettato e realizzato nella versione cartongesso o intonaco. Abbinato allo stipite è offerta una vasta gamma di pannelli con possibilità di finitura a tempera che rende la porta completamente invisibile nel contesto della stanza. Chi ricerca un design "minima" può scegliere tra l'intera gamma di colori RAL opachi oppure tra numerose essenze preggiate.

The invisible frameless door.

ETHEREA collection, designed by the research division of GD DORIGO, is a frameless corridor door which opens by pushing or pulling. It has a patented frame and is available plastered or in plasterboard. Together with the frame, we offer a wide range of panels with a tempera finish which makes the door invisible in the room. For those looking for a "minimal" design, we offer the full range of RAL colours with matt finishes and many quality wood veneers.

art

Le immagini sono realizzate a mano in esclusiva da Raimondo Sandri per la collezione ART di GD DORIGO. I disegni sono definiti con inchiostri speciali; le camپture sfumate ed i tratti sfumati lasciati dal pennello, offrono ad ognuno una libertà di interpretazione totale.

La caratteristica pittorica dei disegni rende suggestivo l'ambiente facendo diventare ogni porta uno schermo su cui proiettare immagini nate dalla fantasia, dove le combinazioni cromatiche accentuano la modernità dello stile che arreda con gusto e personalità.

Raimondo Sandri's freehand drawings, exclusively created for the ART collection of GD DORIGO. The drawings are created using special ink to produce shaded backgrounds, brush strokes and spontaneous stains which offer everyone the freedom to interpret them according to their own feelings. The pictorial features of the pictures add colour to every room and convert every door into a screen onto which imaginative images are projected. The colour schemes stress the modernity of a style that will add gusto and personality to any home.

Ispirazione orientale nell'estetica e nello stile firmato

Giugiaro Design

Dall'esperienza e dalla creatività di Giugiaro Design prende forma la collezione iKI: un progetto dai contenuti estetici rivoluzionari che

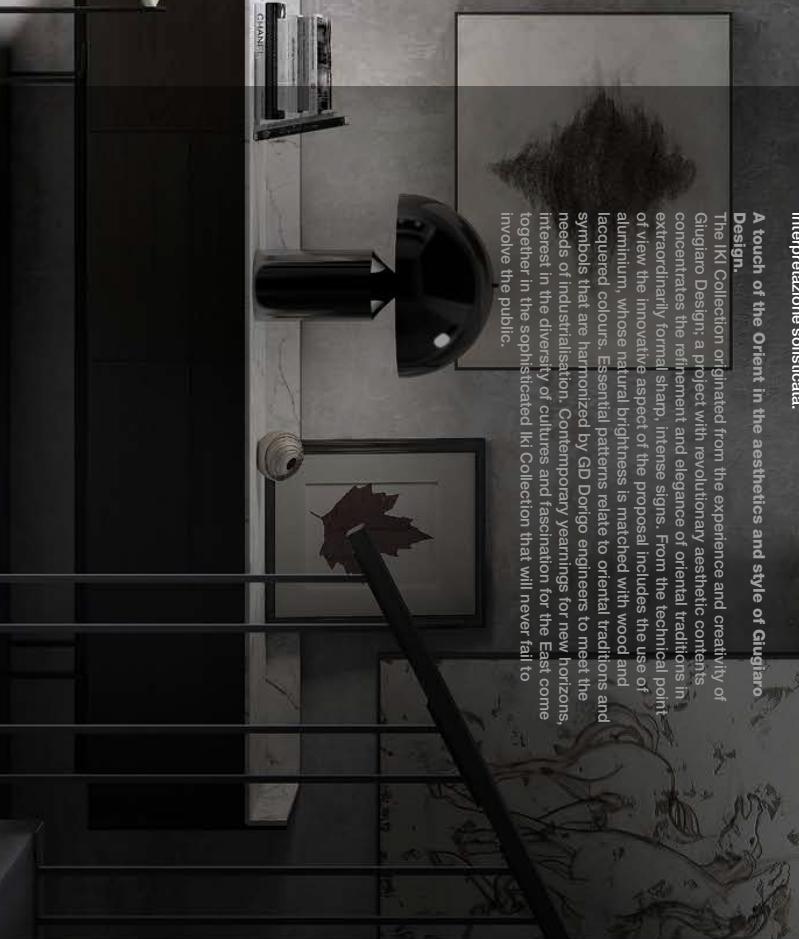

raccorda la raffinatezza e l'eleganza della tradizione orientale con segni nitidi ed intensi di straordinario rigore formale. Il valore tecnico è espresso attraverso l'utilizzo dell'alluminio che si presenta nella sua

lucentezza naturale abbinato al legno ed ai laccaati; La ricerca contemporanea di nuovi orizzonti espressivi, l'interesse per la diversità delle culture e per l'Oriente trovano nella collezione iKI una

interpretazione solistica.

A touch of the Orient in the aesthetics and style of Giugiaro Design.

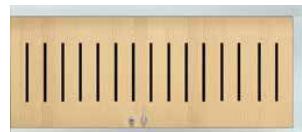

The iKI Collection originated from the experience and creativity of Giugiaro Design: a project with revolutionary aesthetic contents that concentrates the refinement and elegance of oriental traditions in extraordinarily formal sharp, intense signs. From the technical point of view the innovative aspect of the proposal includes the use of aluminium, whose natural brightness is matched with wood and lacquered colours. Essential patterns relate to oriental traditions and symbols that are harmonized by GD Dorigo engineers to meet the needs of industrialisation. Contemporary yearnings for new horizons, interest in the diversity of cultures and fascination for the East come together in the sophisticated iKI Collection that will never fail to involve the public.

Wood doors collection

Porte lisce, intarsiate o con incisioni.

Le porte IMAGO regalano atmosfera ed antiche emozioni. Il risultato estetico degli intarsi è frutto della maestria artigiana accompagnata dall'ingegnerizzazione della produzione. Le preziose lavorazioni realizzate con essenze pregiate mettono in risalto tutto il colore del legno, attribuendo un valore unico e distintivo ad ogni pezzo. La delicatezza ed il pregio delle essenze caratterizzano ogni ambiente con uno stile raffinato. IMAGO è la porta che nasce da un pensiero artigiano per un ambiente classico senza tempo.

Plain, inlaid or engraved doors.

IMAGO doors create an atmosphere and arouse emotions from the past. The beauty of the inlays is achieved by the craftsman's skill and fine engineering work. The outstanding crafting of the wood underlines its warmth, giving value to each unique, distinctive piece. The delicacy and value of the wood add refinement to any room. IMAGO is a door that originates from an artisan's idea, for a classic timeless ambience.

Venus

Porte lisce, pantografate o incise, in delicati colori pastello. Nuova nelle linee e nelle tonalità, VENUS mantiene il rigore e la sobrietà delle porte lisce, cui aggiunge il gusto tradizionale delle porte classiche. La collezione si distingue nella varietà dei disegni e delle colorazioni, utili in uno stile di arredamento attento ai particolari e alla ricerca di nuove idee caratterizzanti. La geometria delle pantografature e delle incisioni rivestono la porta di differenti significati rendendola adatta a rispondere ad un gusto tradizionale oppure ad un arredamento più moderno. Le trame dei nuovi tessuti donano alla superficie della porta morbidezza e design giovane.

Doors decorated or engraved by pantograph, in delicate pastel colours.
With new lines and colours VENUS maintains the rigour and sobriety of plain doors, adding the traditional familiarity of classic doors. The collection is available in a wide range of models, colours and is the right choice for a sophisticated designer alert to details and always in search of new ideas. The geometry of the pantograph work and engravings makes the doors significant in different ways, making them suitable for both traditional tastes and more modern interior decoration. The texture of the new fabrics gives softness and young design to the surface of the door.
